

## Kinnect - Bugs List

1. need to improve responsiveness as ui disturbs mobile screens.

### Steps to Produce

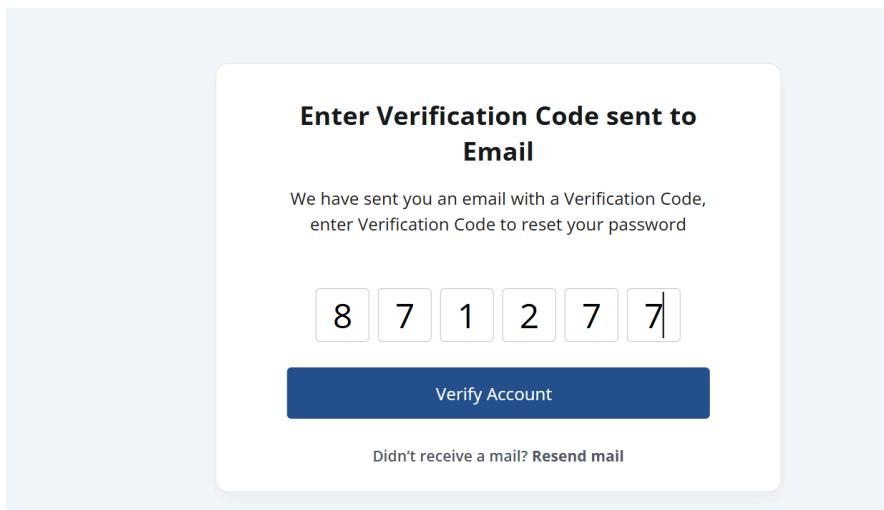

1. Open a mobile device.
2. Navigate to <https://app.kinnect.us/home>.
3. Scroll through the page and observe layout alignment, spacing, and component behavior.

2. The user can reset the password by entering any otp.

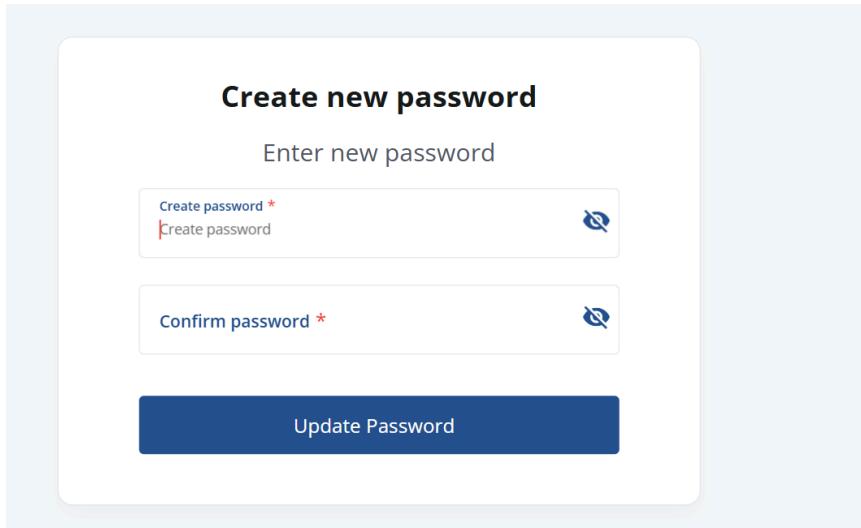

### Steps to Produce

1. Go to <https://app.kinnect.us/forgot-password>.
2. Enter a registered email address in the input field.
3. Click the "Send Verification" or "Forgot Password" button.
4. Wait for the OTP field to appear..
5. Any Random OTP.
6. Click the Verify Account button.

Observe the behavior:

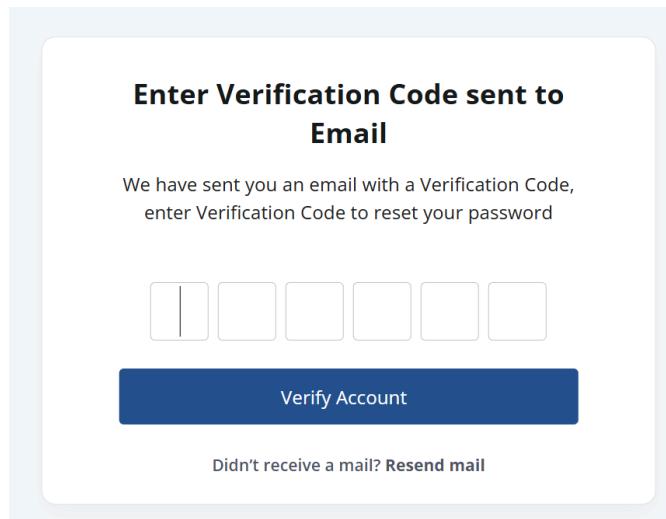

- The system accepts the random OTP.
- The Reset Password fields (Create Password + Confirm Password) appear.

### 3. OTP message not receiving

#### Steps to Produce

1. Open <https://app.kinnect.us/forgot-password> in a browser.
2. Enter a registered email address.
3. Click send verification code.
4. Wait until the OTP input field becomes visible.
5. Type any random number.

### 4. After creating a checklist If user clicks on check box and click on status or owner button it does not show any information

#### Steps To Produce

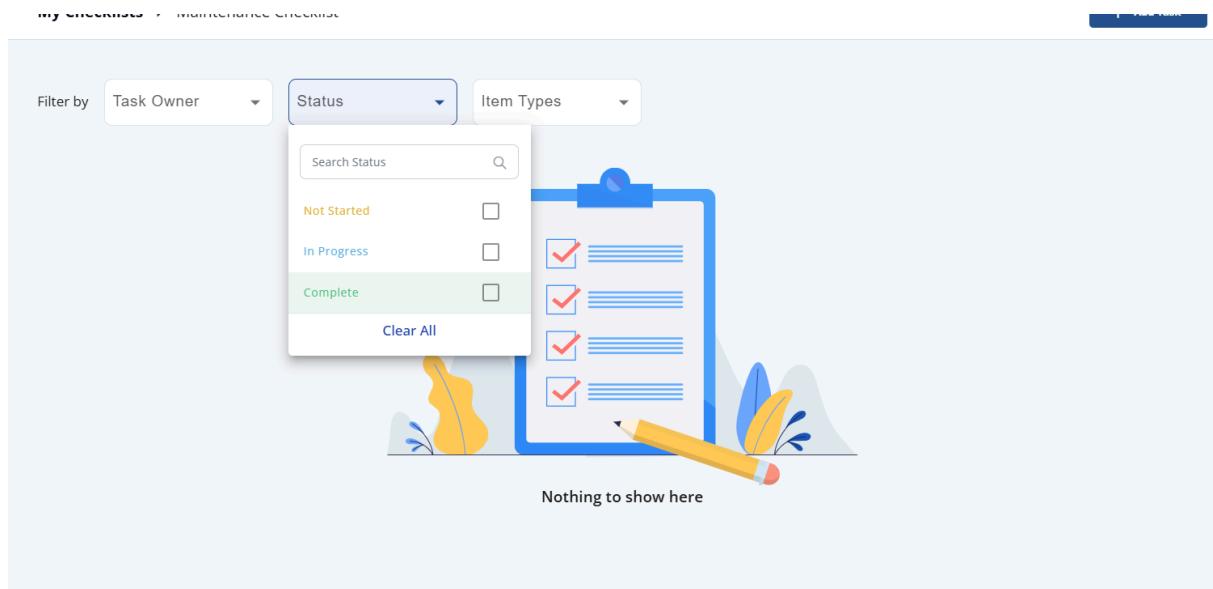

1. Navigate to My checklist page
2. Create a checklist
3. Click on check box on created checklist
4. Click on status or owner button

Name	Due Date	Task Owner	Status
task	More 90 days (1 item)	<input checked="" type="checkbox"/> Status  Task Owner  Delete <input checked="" type="checkbox"/> Send To Mobile  Close	Not Started

- 5. In My checklist -> Maintenance Checklist page, If no filters are selected it does not show any list**

#### Steps To Produce

1. Navigate to My checklist page
2. Click on Maintenance checklist
3. Unselect filters

After unselecting filters

The screenshot shows the 'Maintenance Checklist' page with filters applied. The 'Status' dropdown now shows 'Not Started' (checked) and 'In Progress' (checked). The main area displays a table of tasks. One task is visible in the table, and another is listed below it: 'More 90 days (1 item)'. The table columns include 'Name', 'Due Date', 'Task Owner', and 'Status'. A 'Resolve' button is located in the table header. A 'Not Started' filter is highlighted in yellow. A 'Clear All' button is also present in the status dropdown menu.

Before unselecting filters

- 6. All filters in data I've shared are un-clickable except "status" and "last updated" filters.**

**Steps to Produce**

1. Navigate to data I've shared page
2. Click on filters except “status” and “last updated”
